

Paso 1. Verificación de Node.js y NPM

Paso 2. Verificación inicial de Codex CLI

Paso 3. Instalación de Archify

The screenshot shows a Visual Studio Code window with a project named 'Practicas_Integradora_230142'. The Explorer sidebar on the left shows files: 'archify-mobile-platform.architecture.json', 'mobile-platform-architecture.html', 'mobile-platform-architecture.visual-check.j...', and 'readme.md'. The Terminal panel is active, displaying the command `npx skills add tt-a1i/archify -g` and its output. The output indicates that the 'skills' package (version 1.5.18) is being installed and that the 'archify' skill was found. Below the command output, a detailed description of the 'skills' CLI is provided, including its source, repository, and usage instructions. The status bar at the bottom shows the current file is 'Ln 1, Col 43' and the encoding is 'UTF-8'.

SKILLS

skills

- Source: <https://github.com/tt-a1i/archify.git>
- Repository cloned
- Found 1 skill
- Skill: **archify**

Create polished, validated architecture, workflow, sequence, data-flow, and lifecycle/state diagrams as explor able standalone HTML with inline SVG, dark/light themes, optional trace motion, and PNG/JPEG/WebP/SVG/WebM export . Accept plain-language requirements or pasted Mermaid flowchart, sequenceDiagram, and stateDiagram input; inspec t repository evidence when the diagram must reflect real code. Use when the user asks to visualize system archite cture, infrastructure, cloud/security/network topology, technical workflows, API call sequences, request lifecycl es, data pipelines, ETL/ELT, data lineage, state machines, or to convert/beautify Mermaid.

Paso 4. Inicio de Codex CLI

Paso 5. Vinculación de la cuenta de ChatGPT con Codex

Paso 6. Ingreso del prompt de arquitectura en español

Paso 7. Visualización de la arquitectura interactiva

Paso 8. Eliminación de archivos anteriores en inglés

Paso 9. Verificación de cambios con Git

The screenshot shows the Visual Studio Code interface with the Explorer sidebar on the left displaying the file structure of the 'Practicas_Integradora_230142' project. The main editor area is currently blank, showing a large, faint 'X' watermark. The bottom panel contains the Terminal window, which displays the output of the 'git status' command. The output indicates that the branch 'Practica02' is up to date with 'origin/Practica02'. It lists three deleted files: 'archify-mobile-platform.architecture.json', 'mobile-platform-architecture.html', and 'mobile-platform-architecture.visual-check.json'. It also lists three untracked files: 'arquitectura-plataforma-movil.html', 'arquitectura-plataforma-movil.json', and 'arquitectura-plataforma-movil.visual-check.json'. The status bar at the bottom shows the active branch as 'Practica02*' and the current project as '(no project)'.

```
C:\Users\HP\Desktop\DMI\Practicas_Integradora_230142>git status
On branch Practica02
Your branch is up to date with 'origin/Practica02'.

Changes not staged for commit:
  (use "git add/rm <file>..." to update what will be committed)
  (use "git restore <file>..." to discard changes in working directory)
        deleted:    archify-mobile-platform.architecture.json
        deleted:    mobile-platform-architecture.html
        deleted:    mobile-platform-architecture.visual-check.json

Untracked files:
  (use "git add <file>..." to include in what will be committed)
        arquitectura-plataforma-movil.html
        arquitectura-plataforma-movil.json
        arquitectura-plataforma-movil.visual-check.json

no changes added to commit (use "git add" and/or "git commit -a")
```

Paso 10. Actualización del README y preparación del commit

The screenshot shows the Visual Studio Code interface with the following components:

- Explorer:** Shows the file structure of the project `Practicas_Integradora_230142`, including `arquitectura-plataforma-movil.html`, `arquitectura-plataforma-movil.json`, `arquitectura-plataforma-movil.visual-...`, and `readme.md`.
- Text Editor:** Displays the `readme.md` file with the following content:

```
1 # Prácticas de Integradora
2
3 ## Ingenieria en Desarrollo y Gestion de Software
4
5 <p align="center">
6   
7   
8   
9   
10  
11  
12 </p>
13
14 ---
15
16 ## Tabla de prácticas
17
18 | No. | Práctica | Objetivo | Firmas | Evidencia |
19 |---:|---:|---:|---:|---:|
20 | 02 | **Arquitectura de Plataforma Móvil con Archify** | Instalar y configurar Codex CLI y Archify para
```
- Terminal:** Shows the output of the `git commit` command:

```
arquitectura-plataforma-movil.json
arquitectura-plataforma-movil.visual-check.json

no changes added to commit (use "git add" and/or "git commit -a")

C:\Users\HP\Desktop\DMI\Practicas_Integradora_230142>git commit -m "add:Practica02 arquitectura interactiva con Arc
hify" -m "Se agrega el modelo de arquitectura en español generado mediante Codex y Archify, incluyendo el archivo H
TML interactivo y los archivos de evidencia."
```
- Status Bar:** Shows the current file is `Practica02*`, with 81 words, UTF-8 encoding, and CRLF line endings.
